## WILDFLOWER BREWING & BLENDING

*Wildflower is a small but prestigious brewery in our city's Inner West founded by two families. Primarily focusing on fermenting with a diverse culture of brewer's yeast known as mixed fermentation, they source foraged yeast from across NSW in addition to their house culture.*

*Experimenting and learning on a daily basis from their commitment to altered fermentation, the beer-making process is unique in order to allow these wild yeasts express themselves in their natural and positive way highlighting complexity in flavour.*

*Each year at harvest the team works with a selection of vineyards and orchards across NSW to preserve the flavours of various fruits by macerating whole with barrel aged ale. These beers are a celebration of the producer, bearing a unique microflora fingerprint.*

*Their brews will change your perspective of what a beer is, sharing a vinous texture with cider-like acidity, great length and subtlety.*

*We are extremely proud to offer a selection of their brews both by the glass and bottle.*
